This camper is a 2014 Grey Wolf by Forest River Cherokee model 26RL, approx 31ft and the UVW is 5700LBS.

We completed an inspection on this RV and the following shows the results of our findings:

Text 864-245-0730 to text or call the store 864 845 1484.

There is roof AC unit that works.

The LP system works, we had to check the system with one of our LP bottles since the LP bottles are missing on

bottles are missing on this camper.

The Furnace Heat, Water Heater and Stove top did function with our LP parts. The microwave is missing. The water system works on city water hose, however the 12volt water pump is defective and you can not use the water if no water hose is attached. Cheap low volume water pump around \$125 and expensive high volume up to \$300 or so, plus install of about 30 minutes.

The fridge works.

The awning works as you can see in the photos but the awning material is the original and really needs to be replaced.

Tires have newer date codes and look good.

There are no keys to this unit.

A new lock with keys can be purchased on Amazon for around \$50.

If you do not see it, or I do not show it functioning or it is not listed in this description, the I

did NOT check it, it is missing or similar.

The only items checked are listed or shown in photos.
