1932 Ford Model 18 Roadster Custom

Ford Model 18s are a favorite for hotrod customization kits, and with this build it is easy to see why. A custom black interior with leather seats welcomes the driver and passenger into a sturdy cabin behind a low, partially tinted windshield. NFI installed a Holley Sniper EFI tuning kit for peak performance out of this 468 big block. Pairing nicely with this Chevrolet motor is the popular Muncie 4-speed manual transmission for changing gears. The rear axle is from Frankland Racing Supply, a quick-change rear end that carries with it the strength of the name. In the front, 205/55 Dunlop Direzza tires perform the steering on 15" wheels while much larger 315/60 Mickey Thompson ET Street racing tires grip for acceleration on the rear end. Come check out this hot rod, you're going to love the way it drives.
