Vehicle Description

2017 Chevrolet Silverado 2500HD High Country

One-owner from the southern states this *loaded* Duramax is a steal. Chevrolet's High Country package rarely leaves much to be desired and this pickup is no exception. The interior is speckled with both luxury and tech options; starting with the driver: a heated steering wheel for comfort and automatic emergency braking for safety. An integrated trailer brake controller is conveniently next to the wheel for ease of control over a heavy load. Both driver and passenger enjoy dual zone climate and heated and cooled seats, and a power moonroof is always a bonus. In addition to the locking compartment under the center bench seat, there is a wireless phone charger on the arm rest.

Under the hood is GM's redesigned 6.6L Duramax turbo diesel making a cool 445 horsepower and 910lb-ft of torque. What was new in the redesign? Ultimately, the 2017 Duramax 6.6L was lighter and more powerful than ever. With a 19% increase in max torque over last year's model, why would you choose anything other than the big brother? As if Duramax needed a world-class transmission to harness that power, this crew cab 3/4 ton comes with the Allison 6-speed transmission, the perfect balance between power and fuel efficiency. Come take this machine for a drive before it's gone. In this used truck market a Duramax like this won't be here long.
