This 1971 Chevrolet C10 4WD is being sold on consignment. The owner did a beautiful job completely restoring and customizing this

you completely restoring and customizing this truck. It is beautiful inside and out, it runs and drives excellent. The truck was built here in Jacksonville, Florida, no expense was spared, he has a file with most of the receipts from the build. The truck is painted Magnetic Metallic Gray, it was modified by using a 1989 Chevrolet 1500 frame with a 350ci V8 engine and a GM 700R4 four-speed automatic transmission and a dual range transfer case that has been refurbished. The 1989 floorpan was grafted to the truck and the fuel tank was relocated to fit the 1989 frame. Also a 1968 C10 front end and grille were used as the owner preferred the look of the older front end. A 4" Pro-Comp suspension lift was installed, along with a Magnaflow dual exhaust system, Pro-Comp 17" wheels, 315/70 BFG All-Terrain T/A KO tires, disc brakes front and rear, chrome bumpers, LED taillights and turn signals, and chrome door handles and side mirrors.

It has a new GM 350ci V8 crate motor enhanced with an Edelbrock Performer RPM roller hydraulic camshaft, Edlebrock cylinder heads, and Edlebrock intake manifold. Also has a MSD Atomic EFI throttle body injection kit, ARP head bolts, and a March Performance pulley drive system and All American billet aluminum hood hinges.

It has a dark gray bench seat, a re-finished leather covered dash with detailed stitching, re-upholstered door panels and headliner, aftermarket radio and a leather wrapped steering wheel. A Vintage Air climate control system was added, new carpet and all new weather stripping. It has a 140-mph speedometer, tachometer, and auxiliary gauges. The five-digit odometer shows a little over 500 miles since the restoration was completed.
