DCT - SERVICED - PREMIUM PKG - NEW TIRES

* Good luck finding another one this clean! This is one of our favorite cars, and we actually own one. Possibly the best M car ever made

* Please note, this car received a LEMON LAW BUYBACK title back in 2012 - what does it mean? It means the car spent over certain numbers of days at a dealership being fixed, and it was purchased back by a manufacturer. Whatever happened - it happened 50K miles ago and over 10 years back. What it means now? It means it's much harder to get financing on these days - still doable, but you will need good credit!

* Just serviced - fresh 5w50 Redline oil, fresh OEM DCT fluid, fresh RedLine diff fluid, coolant, new plugs

* 19" wheels wrapped in brand-new set of Michelin Pilot Sport 4S tires

* Brand-new steering wheel trim piece (the one that always get worn)

* Brand-new set of OEM M Performance grills

* Brand-new set of LUX LED angel light bulbs (the best on market)

* Lots of NEW interior trim pieces - interior looks spotless

* Insanely clean car - a few small chips on the front bumper, but otherwise it's MINT!

- * DCT
- * EDC
- * Tech pkg
- * Comfort access
- * Navigation
- * Premium pkg
- * Interlagos Blue over black leather
- * Carbon leather interior trim
- * Heated seats
- * Gintani cat-back race exhaust with switchable valves (loud if valves are opened)
- * No, we don't know if the rod bearings have been changed, and we don't have any records on throttle actuators - please have it inspected and don't call us if something breaks - unfortunately it's common when these cars are purchased by young people spending their last dollars without doing any research and without a clear understanding how to treat and drive these cars. If something breaks, they can't afford to fix them and blame us. T/A can easily be upgraded, rod bearings on these cars are a wear and tear item.... 2011 cars came with slightly upgraded material on the bearings, but it's not a 100% fix.
- * 3 previous owners w/ lots of service records per Carfax report
