We are proud to offer you this 2006 Lotus Elise Supercharged with Many Upgrades for

sale!

This 2006 Lotus Elise is a heavily modified sports car built to clone the Lotus Exige. Under the bonnet, a 1.8-liter inline four cylinder engine produces 190 horsepower and 138 lb-ft of torque, which is passed through a six-speed manual transmission to the rear wheels for one of the most well-developed driving experiences a car can offer. This engine, however, is not stock, having been upgraded with a Lotus Exige supercharger and ECU, aftermarket Larini headers, and a stainless steel Larini exhaust, among other performance modifications. Painted in a bright Ardent Red and fitted with 17" lightweight wheels, this sporty coupe is an attention getting machine like nothing else. With the addition of several modifications to turn this performance machine into a one-of-a-kind sports car, including an APR carbon fiber rear spoiler, GRP carbon fiber cosmetic panels and vent blades, GRP carbon fiber headlight housings, Tecnocraft carbon fiber bucket seats and a GARW IC7 custom dash, this Lotus is a truly unique machine in every way.
