## Vehicle Description

[www.cheaprvs.net](http://www.cheaprvs.net)

This camper is located at CheapRVS LLC in Piedmont SC 29673 at 616 Shiloh RD.

We are open M-Thursday 9 to 4 and Friday 9-12.

You can view this camper and our other inventory anytime during our business hours.

We are always closed on Saturday and Sunday. The RV tech only works Monday thru Thursday, so, if you need assistance at time of pickup, you need to be here Monday thru Thursday.

This is a Newmar Allstar 4258, 2009 model with a

2008 title, 41ft with 1 Slides, Cummins ISL 400hp Diesel with an Allison 6speed Auto trans.

We completed an inspection on this RV and the following shows the results of our findings:

Text 864 245 0730.

The engine runs good.

The transmission shifts good.

The engine or dash AC seems to maybe need a little freon gas to make it cold.

This motorhome was just driven approx 300 miles with no issues.

There are 3 roof AC units. The middle and rear blow cold, the front just blows air, it might be low on the freon gas or similar.

The LP system Furnace, Water Heater and Stove top try to function but it is out of the LP gas.

It has new looking MICHELIN tires.

The microwave turns on, although we did not cook anything in it.

The water system works.

The fridge works.

The power cord is a 50 amp and is missing. We used one of our power cords to check the systems. Typically, we have used 50amp twist

lock power cords for \$125 and new for \$225.

The jacks do not work and we did not check any further.

The carpet looks good for the age.

The Onan Diesel generator runs and produces power.

The main awnings are electric, the front awning functions proper, the rear does not, it seems that the switch for the awning is stuck, so most likely replace that switch and the rear awning will function as well.

The rear entry door, originally has a step to attach and the step was stores under the floor below the door. The step is missing. The floor under the rear door, at the door frame is a little soft. If you look in the storage area for that step you can see the wood. Should be a easy repair.

The front paint is messed up. It originally had that 3M clear bra and over time it has cracked and someone has painted over and it looks decent but you can still see the cracks.

The ice maker in the rear kitchen was removed, after we took the photos.

A few of the lights do not work as you can see in the photos, most of the time, the bulbs are bad. Most of these older motorhomes really need the oil, oil filter, fuel filter changed on both the engine and the generator.

The house batteries are older and may need to be replaced.

The engine batteries look newer and seem to be fine.

We did NOT check anything else.

If you do not see it, or I do not show it functioning or it is not listed in this description, the I did NOT check it, it is missing or similar. The only items checked are listed or shown in photos.

This RV is older and a little dirty and it could use a good cleaning, it is 17 years old and used. I tried to take a lot of photos so you can tell.

For the buy it now price of \$64999 we will include the following:

oil, oil filter and fuel filter change on both the engine and generator

Wiper replacement

Power cord

Full tank of Diesel and LP.

This means that you have the opportunity to purchase cheap, fix it up and sell for a profit if you so desire.

For any other price those items would NOT be included.

We do NOT accept credit cards or Paypal for final payment.

You can pick up the camper anytime during our business hours.

We can store the camper for free for up to 6 weeks after it has been paid in full.

Once it has been paid in full we can perform any service that you need since we are a full service facility.

#### Installed Options
