This is a 1998 Damon Daybreak with 0 Slides, model 3130, 33ft long.

Only 39k miles

We completed an inspection on this RV and the following shows the results of our findings:

Text 864-245-0730.

The Chevy 7.4 liter Big block 454 cubic inch engine runs good.

The transmission shifts good.

The Onan gen works on starting fluid but needs the carb

replaced.

The engine or dash AC seems to maybe need a little freon gas to make it cold.

This motorhome was just driven approx 100 miles with no issues.

There is a roof AC unit that works. The thermostat is missing but we can connect wires and make the roof turn on and cool.

The LP system, furnace, Water Heater and Stove top try to function but the lp tank is low.

It needs new tires or approx \$1900. The tires are approx 10 years old and for a short distance they are probably fine.

The microwave turns

The microwave turns on, although we did not cook anything in it.

The water system works.

The fridge does not get cold, it turns on.

The jacks work.

The power cord is a 30 amp.

The main awning works, but it needs new material.

We have the ignition key, storage door key and the hood key, but the entry door key is missing.

A few of the lights do not work as you can see in the photos, most of the time, the bulbs are bad.

Most of these older motorhomes really

need the oil, oil filter, fuel filter changed on both the engine and the generator.

We did NOT check anything else.

If you do not see it, or I do not show it functioning or it is not listed in this description, the I did NOT check it, it is missing or similar. The only items checked are listed or shown in photos.

This RV is dirty and needs a good cleaning and it is also a little rough, it is 24 years old and used.

I tried to take a lot of photos so you can tell. For the buy it now price of \$17999 we will include the following:

include the following.
