Here is another quality, 1 owner, low miles Ford F150 Supercab and yes that is right it is not a typo, this truck has only 89k miles on the odometer.

The previous owner was Oncor electric, we purchase a lot of vehicles from them and they are all very well maintained, therefore they are always free of any mechanical or electrical issues.

As you would expect of such a low miles, very well serviced Ford, it looks, runs, rides, drives and stops just like it was designed to.

The 5.0 V8 runs like new, the auto transmission shifts really smooth, it drives in a straight line on a very good set of BF Goodrich tires.

Everything works and operates like it should, the a/c is ice cold. the heat hot.

...and the rest...

**The paintwork has a showroom shine, the interior is just about flawless.**

**The perfect truck for the plumber, HVAC, electrician, construction, landscape, garage door, remodeler, etc., etc.**

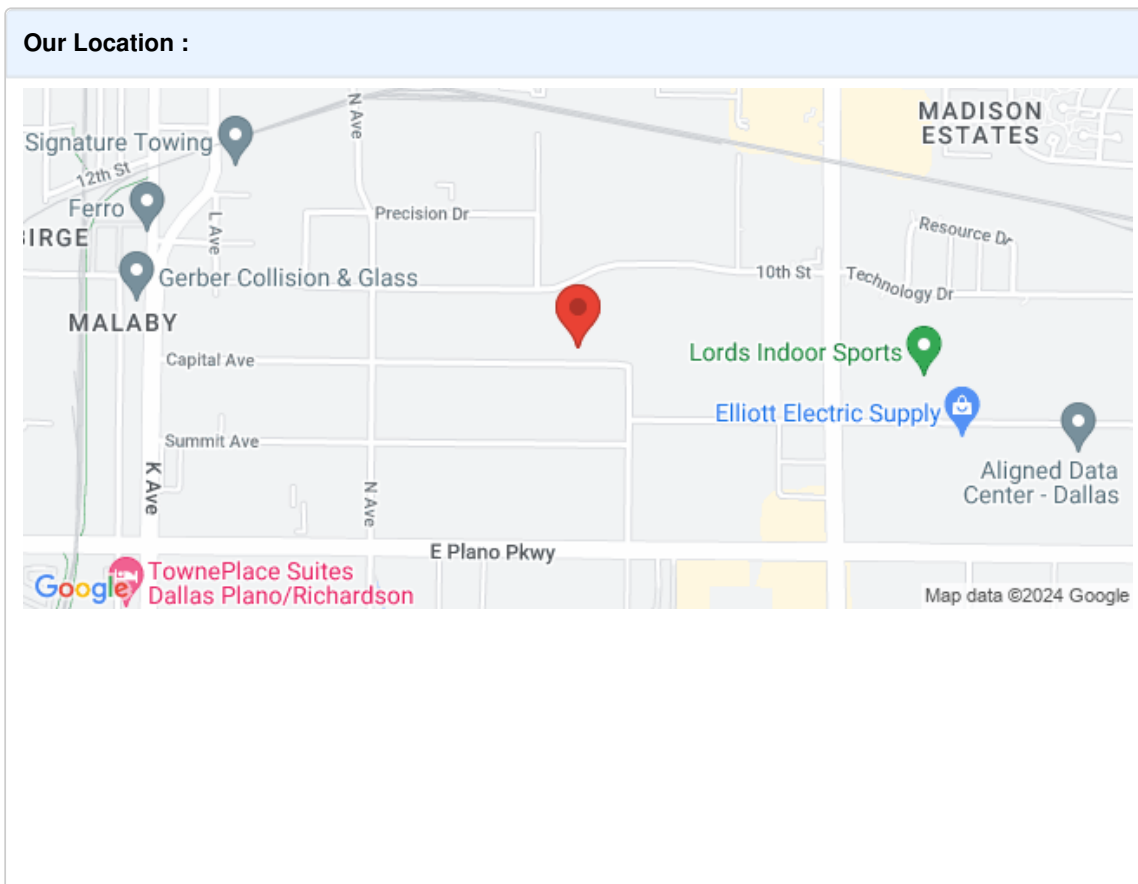

**If you need a good solid truck with low miles that won't break the bank, then look no more this is as nice as they get for this money.**
