## Vehicle Description

Found these for the folks whose youngin is in between the entry level and a full sized quad. Numerous parents have told us they simply can't find one that fits their child. Most youth quads are too tiny, or WAAAAAYYYY huge! These seem to fit that in between size, everyone is looking for. Plus, when your youngin gets in a pinch, it has reverse, so he can just back out. This quad has the fast and fat look that all the kids are chasing, but in actuality, you can govern it down to 4 miles per hour!
