We are proud to offer you this 2014 Chevrolet Corvette Z51 3LT Supercharged with a Custom Widebody for sale!

This 2014 Corvette Z51 is an iconic performance machine with outrageous modifications to make it similar to a C7 Z06, only better. Under the hood resides a 6.2-liter V8 engine that, unmodified, produces 460 horsepower and 465 lb-ft. of torque. Among plenty of other upgrades, this power plant has received the LT4 Z06 supercharger and Kooks long-tube headers, resulting in this aggressive car pushing much higher power figures and producing a sound like nothing else from its quad-tipped exhaust. The exterior has not been left untouched either, with the stock fenders replaced by a custom widebody kit that far exceeds the width of a stock Z06, as well as Z06 headlights and 20" Modulare Forged wheels that match the exterior of the car beautifully. Fitted with the Z51 package, this machine is equipped with an electronically controlled limited-slip differential, improved brakes and suspension, and upgraded coolers for the transmission and differential. Despite its performance orientation, however, this Corvette does not lack creature comforts, thanks to the 3LT package. These amenities include heated and ventilated red leather bucket seats, an infotainment with Bluetooth, rear camera, and navigation, and a high-quality Bose sound system.

LIST OF FEATURES & UPGRADES:
