We do have the original window sticker from 1998, the radio security code card and the owners portfolio. I do have some very recent service documentation. Privacy concerns will significantly limit what can be passed along. This car runs and drives great considering the miles. Obviously a well cared for car. I would be willing to bet this car lived indoors because really limited sun damage. The air-conditioning is ice cold even on these one hundred plus days we have been having in north Texas. This car could be a daily driven classic, a weekend coffee trip car or simply an entry level classic.
