This Buick is far from your ordinary 39' Special. As a matter of fact special is about the only word you can use to describe this car! It has been stateside for most of its life while also spending time in Europe (Germany specifically) but it has undergone a total transformation over the last 83 years! From its dark green emerald paint job, retrofit LED headlights to even a motor swap it has been completely transformed from its original specification which underwent a full restyling in 1939. This included a more enclosed nose and a wider grille as well as shortening the wheelbase two inches to improve its drivability! Speaking of which, this Buick has a LT1 small block V8 out of a Corvette/Camaro! A/C, Power Brakes, and Power Steering make this the easiest and most modernized 39' Buick in all of our inventory! This one is SPECIAL (haha) so make sure you stop by before its gone! Financing is easy and trades are welcome, so call, click, or stop by today!
