Someone bought a 3 Window 34' model from Classic Motor Carriages, channeled their inner Tim Taylor, and said... "Just how much motor can we shove in one of these? They landed on a 427 cubic inch Chevrolet Big Block and made every adjustment required to cram it in. The modifications didn't stop there. They wanted 33 inch tall 21.50 inch wide Mickey Thompson tires in the back to help use that big block's power. A narrowed Moser axle and big tubs helped get that job done. ET Streets up front make for good traction out of skinnies up front. Bright red paint completes the Street Rod look and the interior is red and black leather from side to side. It runs like an absolute monster and is certainly a 1 of 1 build. Financing is easy and trades are welcome, so call or click quickly if you want this one.
