We are proud to offer you this 2018 Chevrolet Corvette Z06 3LZ 1000hp with Over 30k in Receipts for sale!

This 2018 Chevrolet Corvette Z06 3LZ is a fully-loaded American legend that has been modified to the absolute limit. Under the hood, a supercharged 6.2-liter V8 engine produces 650 horsepower and 650 lb-ft of torque, all of which is sent through an eight-speed automatic transmission to the rear wheels. The engine is not stock, however, having received LG Motorsports Stage 4 package, which has ramped up this beast's output to 823 wheel horsepower and 744 lb-ft of torque—or about 1000 crank horsepower. Included in this package is the LG Motorsports heads & cam package with an LG C7x3B camshaft and LT4 ported & polished cylinder heads, a KONG Stage X ported supercharger & snout, an LG Motorsports 15% overdrive supercharger pulley kit, and LG Super Pro long tube 1 7/8" headers, among many other modifications listed below. This absolute monster comes equipped with 19" BC Forged multi-piece wheels and is finished in Watkins Glen Gray Metallic, giving it an even sleeker and more aggressive look that hints at the power this car produces. Additionally, several cosmetic mods, including an adjustable carbon fiber rear spoiler, the Ground Effects Carbon Flash package, carbon fiber framed front bumper cutouts, and a carbon fiber front lip adorn the exterior of this insane machine, making it even more unique. In the interior, this 3LZ-packaged Corvette offers heated and ventilated leather bucket seats, multi-zone A/C, selectable drive modes, a flat-bottomed leather "Z06" steering wheel, and an infotainment system with Bluetooth, navigation, and a rear camera, truly making this car the complete package.
