We are proud to offer you this 2018 BMW M2 Big Turbo Widebody Show Car with Many Upgrades for sale!

This 2018 BMW M2 is a one-of-a-kind show car with an insane modification list. Under the hood, a 3.0-liter TwinPower turbocharged inline six-cylinder engine powers this beast, sending its output through a six-speed manual transmission to the rear wheels. The engine is not stock, however, having been built to make 595 horsepower and 623 lb-ft of torque at the rear wheels. To accomplish this, modifications include a Precision Turbo 6466 aftermarket turbocharger, an Active Autowerke intercooler and charge pipes, a Frequency Intelligent titanium 4" race exhaust, a Dinan carbon fiber cold-air intake, upgrades to the fuel system, and many other modifications. This show-ready coupe comes equipped with 19" MTC Design custom three-piece wheels and is finished in Long Beach Blue, the perfect color for this car's aggressive exterior. Additionally, several cosmetic mods, including a 1/8 Darwin Pro Aero full carbon fiber widebody kit, Airlift Performance 3P bag suspension, and PPF on the front clip adorn the exterior of this build, making it even more unique. In the interior, this M2 offers a Studio RSR custom roll cage, Sparco full carbon fiber QRT race seats with Schroth four-point harnesses, a custom starlight headliner, a custom trunk setup for the air suspension, multi-zone A/C, an AEM Tru Boost gauge, and an infotainment system with Bluetooth, navigation, and a rear camera, truly making this car the complete package.
