Additional pictures are posted on I-95 Muscle's direct website.

This rust free 93 S10 was born with a 2.8L V6 that was probably running just fine when someone decided to double those liters and drop a cammed 350 CID V8 in it. The RPO codes show a 5 speed manual with 3.42 final gears, but now it has a TH350 3 Speed Automatic transmission spinning that rear with a staggered set of tires that give off the slicks-n-skinnies vibe. The dark green paint job is okay but appears to be a rattle can job. It's all one color, and a lot of trucks from the 90s can't say that. Open the door and you'll find that the interior was nicely done with gray leather and cloth including the door panels and head liner. It starts up with ease and feels full of power as soon as it warms up. Power brakes and power steering make it easy to drive. Financing is easy and trades are welcome, so call or click before someone else scoops it up!
