Reviews:

* If you want a mature, comfortable full-size sedan with the presence and prestige for which Cadillac is known, the XTS fits the bill in a contemporary suit. On the value side of the equation, the XTS undercuts most European and Japanese rivals while still offering plenty of standard features. Source: KBB.com

* Spacious interior with quality materials; impressive number of high-tech features; available all-wheel drive; new twin-turbo V6 brings serious speed. Source: Edmunds

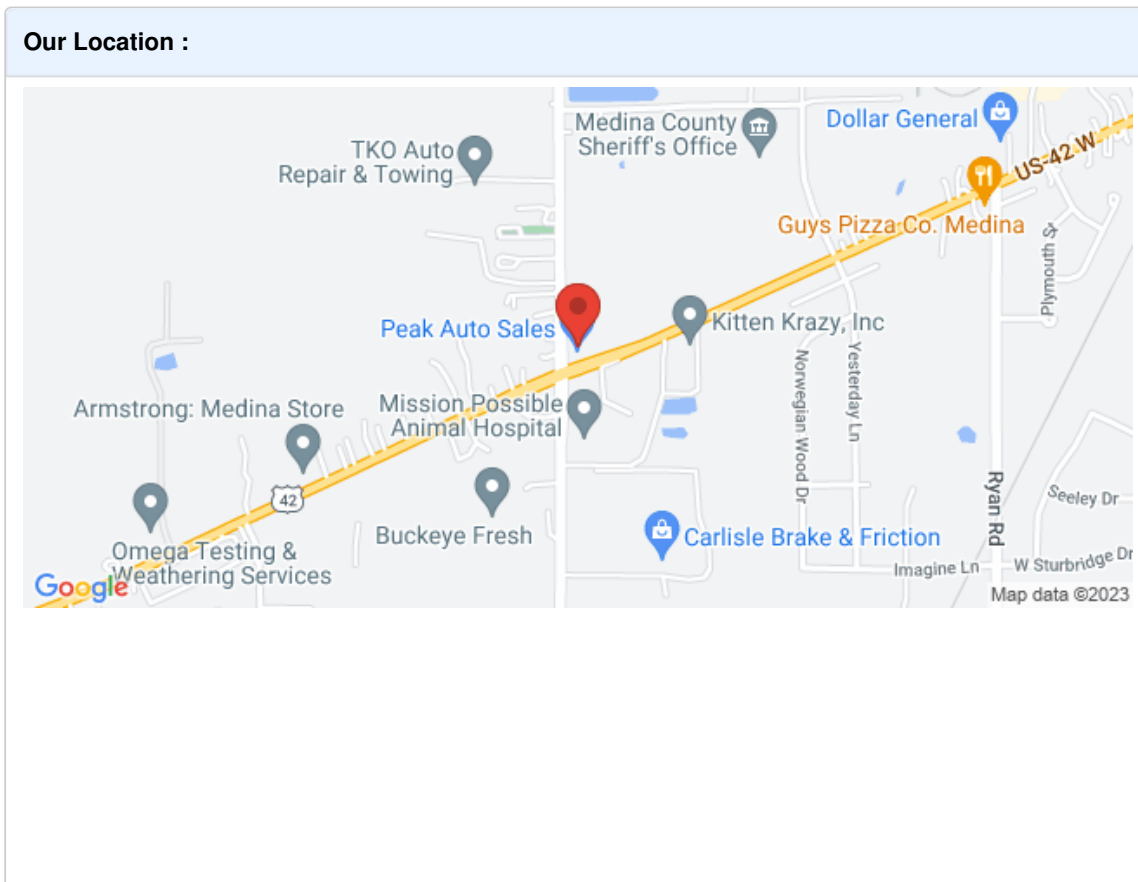

* Every aspect of the 2014 Cadillac XTS was designed with both form and function in mind. The air slips around the artfully chiseled side-view mirrors, meticulously honed for countless hours to reduce wind noise and silence the cabin. The same approximate size as a 48-inch flat-panel television, the available UltraView sunroof spans both rows of seats and offers a view that exceeds high-definition. Stunning 20-inch wheels are standard on the Platinum Collection and available on the Premium Collection, while an artful 19-inch design completes the Luxury Collection. The cabin in the XTS rewards each passenger individually. Pressure-mapping technology was used extensively to optimize front-seat comfort, and rear passengers enjoy separate control of the available tri-zone climate system. The XTS also sets another standard featuring best-in-class rear legroom. For cold winter mornings, the warmth of an available heated steering wheel is the perfect antidote. Look no further than the XTS Platinum Collection. Perforated Opus full-leather seats are renowned for their supple feel, while highly polished premium wood trim is so deeply grained it takes on extra dimension. Powerful yet remarkably efficient, the XTS delivers an exhilarating driving experience with a refined 305HP 3.6L direct-injection V6. Featured on the XTS Vsport Premium and Platinum

Collections the new 3.6L Twin Turbo V6 adds a considerable boost in power, 410HP. With the ability to use multitouch gestures like tap, swipe, and pinch, the available CUE is as easy to use as a smartphone or tablet. Find a song, make a call, input destinations through the available navigation system, and more through voice recognition. Indulge your auditory senses with the available 14-speaker Bose Studio Surround Sound system designed exclusively for the XTS. Available radar and ultrasonic sensors in the front and rear assist in helping to prevent collisions by activating brakes automatically at lower speeds. Source: The Manufacturer Summary
