\* This G500 is for sale, but not on sale! It's not the cheapest G500, but it's the right one! And here is why: If you are looking for a proper off-roader / overlander this is the generation you want to buy: M113 engine is widely regarded as the simplest and the most reliable G-wagon engine you can get in the states + it is paired with the most reliable G-wagon transmission which is a 5G-tronic - not the fastest shifting trans, but it has a track records of being a work horse! This is also a black over black G500, which is pretty hard to find and subjectively the best color combo on a W463 G-wagon. On top of that, this is a California G and it has no rust!

\* Just serviced: Fresh oil, lockers serviced, steering box rebuilt and resealed (very common on these cars), coolant flashed, brake fluid flashed, OEM 5th door seals replaced, new steering stabilizer, new tie rod assembly, new plugs, oil pan gasket done!

\* Brand-new Alcántara headliner and pillar covers!

\* Brand-new set of 33" Verdestein Pinza All Terrain tiers just installed + OEM wheels powder coated in gloss black + 911 motorsports reverse spare tire carrier installed to accommodate for a slightly larger tires

\* Becker Bluetooth audio module installed

\* Euro Amber front turn signals (OEM) + turn signal guards + headlight guards

\* 1 Owner, California car - dry and rust free body and undercarriage

\* Service records per Carfax report

\* Clean and dry undercarriage

\* Please note, some rear end accident was reported to Carfax back in 2009 - third party inspections are welcome!

\* Please note, sunroof was working, but occasionally it will get stuck, we replaced the tracks and sliders, and it's still doing it, so we had it disconnected - most of these cars have sunroof issues - those are super common!
