## Vehicle Description

AutoPark Dallas is thrilled to offer you this 2008 Acura TL Type-S for sale! When Acura brought back the return of the Type-S model, it was received to much fanfare from the enthusiast community - and for good reason, as Acura pulled out all of the stops. From a tweaked **3.5L V6** out of the larger RL model, to a true **6-Speed Manual Transmission** with a **Limited Slip Differential**, the newly revived Type-S was exactly what everyone wanted. Styling cues weren't forgotten either, as almost every inch of the car both exterior and interior had some sort of revising to set the Type-S apart. The desire and appeal behind the model never went away, and in today's market they're not easy to find - especially in unmodified condition, as this example comes. The only modification done to this beautiful and extremely well kept example is the addition of **17-inch Enkei Wheels** to really accent the body styling - other than that, **BONE STOCK** so that the next owner can enjoy the car as it was meant to be from the factory, or tune and modify it to their desire! Either way, you won't find another Type-S currently on the market in this condition! DO! NOT! HESITATE!!! To swing by and check out this Acura TL Type-S that we have parked here in our indoor 16,000 Sq Ft Showroom located in Dallas, Texas amongst our inventory of 100+ other Unique / Modified and Luxury Vehicles!
