<b>Interior:</b>	Brown
<b>Transmission:</b>	MUNCIE 4 SPEED
<b>Mileage:</b>	79,000
<b>Drivetrain:</b>	Rear Wheel Drive

## Vehicle Description

CLASSIC 405 MOTORS PRESENTS THIS UNRESTORED 427 CORVETTE

1969 Chevrolet Corvette 427 CI 390 HP 4 speed manual transmission. 79,000 miles. Tilt/Tele steering wheel, AM/FM Radio for options. Car has never been messed with and has had very little work done to it over the years and never been worked on by the wrong people. It even has the original air pump on the engine which you never see. It's all there.

This was a 2 owner car with the 2nd owners buying it from the original owner in the mid 1970's before we bought it recently in 2023.

All the engine, transmission, differential numbers have been recorded and identified, they are all original to the car besides the passenger side cylinder head, looks to be replaced at sometime in its life, that head is still the same year as the original just has an E month code instead of an H.

It does run and drive, but the engine is not good enough to drive it for long periods, just for moving the car when needed or short in town drive. When taken for a short drive down the road, the transmission, differential, suspension, and other moving parts seem to actually work pretty well yet.

Car is very solid underneath and has all original body panels on it as well. There was a very minor hit on the left rear bumper at some point in the past resulting in a 6-8" crack in the fiberglass above the drivers side rear valance. You have to lay on your back to even see the crack, and it could be easily fixed with no panel replacement. Other than that it is a no hit body.

All original corvettes in this condition are very tough to find these days, especially for a 1969. This is a very solid car that would be a great candidate for NCRS original class entry.

priced at \$53,900
