## Vehicle Description

AutoPark Dallas is thrilled to offer you this 2008 Ford Mustang Shelby GT500 Convertible for sale! The name Shelby has long been synonymous with American muscle car performance, and that couldn't have run truer when Ford and Shelby released their collaboration of the then-new Shelby GT500 in 2007 - a triumphant return of the GT500 name into production, carrying a potent **5.4L Supercharged V8 Engine** good for **500 horsepower** and a **6-Speed Tremec Manual Transmission**, obviously routing power to the rear wheels. This would be the first Shelby ever produced with a Supercharged engine, completely changing the future of the brand and vehicles they would produce, proving to be wildly successful!! This 2008 GT500 Convertible has traveled just over **51k miles** and is in superb condition for the age and mileage. Very few modifications have been made to the vehicle in the form of a **Pioneer Head Unit** and some **Aftermarket Tail Lights** - other than these minimal modifications, the vehicle is indeed presented in bone stock form. There were not many factory options on these vehicles, but the **Ambient Lighting** and **GT500 Premium Interior Trim Package** were some of the top options desired, both present here on this model, with the color scheme finished in a classic **Black exterior** over a **Charcoal Leather interior**, perfectly complimenting the **SVE Wheels finished in Black**. These first generation supercharged GT500 models have become increasingly more difficult to find, especially with a **CLEAN CARFAX**, so don't miss this opportunity and inquire today to put this beauty in your garage before it's too late! DO! NOT! HESITATE!!! To swing by and check out this GT500 Convertible that we have parked here in our indoor 16,000 Sq Ft Showroom located in Dallas, Texas amongst our inventory of 100+ other Unique / Modified and Luxury Vehicles!
