## Vehicle Description

1973 Ford Mustang Mach 1

This Mustang is a meticulously restored tribute car out of Arizona. Being a southern car, no cancerous rust can be found. This is an amazing recent frame up restoration, with exceptional amount of detail. One of the best features of this restoration is the lines (how all the fenders, hood, doors match up) are just laser straight. The grabber blue paint on this mustang was exceptionally well done with little trash in the paint to be found, and you REALLY have to look for it. The interior of this car is just as nice as you would imagine it back in 1973, with new seats, carpet, and headliner. This Mustang does still have the factory tach, and even the original owners manual. During the restoration the car was given a reassigned vin number, and now has a clean blue Texas title (in hand). Current mileage is 87,954, and will not go up prior to sale. Besides the exceptional fit and finish of this car, is how great it runs and drives. This car fires up with little effort, doesn't smoke, and purrs like a kitten. No struggling to keep her running like we are all so use to with older cars. Once on the road you will find this Mustang runs and drives better than you could ever hope for or imagine. This car is located in Celina Texas, and buyer will take delivery in Dallas Texas. If delivery is needed we will assist you with that at the buyers cost. Trades are considered, please text a few pics to me along with how much you feel like your vehicle is worth to 214-732-7859. No projects please, only complete cars etc.
