Exterior:	Crimson Red Sunglo
Mileage:	17,433

2008 Harley Davidson FLHX STREET GLIDE

This particular machine was just purchased after it was traded at a local auto dealership in our region. The Street Glide is by far the most popular bike in the Harley Davidson lineup and rarely ever last the duration of my auctions. It was sold new at Schaeffer's Harley Davidson in Orwigsburg, PA. As you will see in the following pictures it was spared nothing when it came to care. This bike is a stunning 2008 Harley Davidson FLHX Street Glide in the super classy Crimson Red Sunglo sporting only 17,433 miles. The bike runs out smooth and strong and doesn't miss a beat. Serviced regularly and kept in a heated garage year round. This one

has had great care and wants for nothing. The overall condition of the bike is excellent. the tires are deep, the chrome is excellent and the paint is stunning. There's one touched up knick on the front fender. Too hard to see in the pictures because it's small, but it's there nonetheless. Upgraded with some real nice accessories. This bike WILL stop em in their tracks and is without a doubt the one that will make them drool. Harley Davidson... every man's dream and every woman's secret desire. The FLHX Street Glide has proved to be every bit the dresser with an edge for riders interested in considerable custom and comfort. Taking its key styling cues directly from design trends in the custom marketplace, the Street Glide presents full touring capability in style and comfort. It comes equipped with the traditional "bat wing" fairing, Advanced Audio System by Harman/Kardon with upgraded speakers, durable GTX nylon saddlebags, air-adjustable rear suspension and triple-disc brakes. By adding the Twin Cam 96 engine, 6-speed Cruise Drive transmission and ESPFI, while reducing clutch lever effort, the Street Glide becomes even more capable of cruising the streets or touring the country. Also new this year is a redesigned football shape air cleaner. A smoked mini-wind deflector sits above a batwing fairing with mounted mirrors. Low rear suspension puts the Street Glide close to the road with a seat height of 26.3 inches. The rear fender is filled between the saddlebags with Tri-line LED lighting to

saddlebags with tri-line LED lighting to the bottom of the fender. Upgraded with a sweet sounding set of slip on mufflers that are coupled with an upgraded tuner add an awesome sound and further emphasize the thumping of that V-Twin. Streamliner footboards, brake pedal and passenger pegs add to the Street Glide custom styling. A stretched, chrome fuel tank console features a special smoked-chrome emblem. The style and performance combines for a lower, lighter and cleaner touring motorcycle that rides proudly with its Electra Glide heritage.

NEW ON TOURING MODELS FOR 2008

Incorporating the latest in braking technology, the new Harley-Davidson Brembo brakes offer consistent braking and stopping power under all operating conditions. Besides improved brake performance and feel, the Touring motorcycles retain their distinctive Harley-Davidson style. This world class braking system comes to the Touring line with proven capability directly from the VRSC line of performance custom motorcycles. Larger Fuel Tank: Fuel capacity of all Touring models is increased by 20 percent, from five to six gallons. Combined with the 6-speed Cruise Drive transmission, the larger tank gives Touring models more range than ever before. The new tank also features new console styling with a new fuel range indicator, and also enabled the seat to be reshaped for

enabled the seat to be reshaped for more comfort. Electronic Throttle Control: A new Electronic Throttle Control replaces mechanical cables on all Touring models. All wiring from the throttle-grip sensor is routed through the handlebars. The ETC enables the easy upgrade to a new cruise control system, and provides a clean custom look in the handlebar area. Isolated Drive System: Located in the rear sprocket, the Isolated Drive System improves ride quality under accelerations, shifting and cruising while reducing noise and vibration to the rider.

pedal and passenger pegs
- Low Profile rear suspension
- Rear fender ground effects
- Low-hung license plate mount and
hidden plate illuminator

Just some thoughts:

You know, as Americans we've never lived in fear and we're not about to start now. No high gas prices, no incompetent politician and no political party dead set on destroying the foundations of our nation will ever keep me from ridin my Harley because FREEDOM has always been worth fighting for and FEAR SUCKS! Freedom and wind will outlast hard times and I don't know about you, but I'm gonna ride no matter what! Now don't you think it's time for YOU to experience what our forefathers must have imagined FREEDOM could look like! There's nothing like throwing your leg over the heart pounding V Twin engine that has been the heart and soul of a Harley Davidson for over 120 years. Most people would say it's wind blowing in your face when you're cruisin the streets and motoring down the highway, but Harley riders realize

it's not just wind, it's FREEDOM!! And that's something every man dreams of and every woman secretly desires. So follow your dreams and allow Harleys Direct turn your dream into reality today.

About My Prices:

I do my best to offer the highest quality, lowest mileage bikes than anyone else on the planet and do it at a fair price. My prices are ALWAYS lower than franchised dealers and our bikes have much lower miles and they are always in better condition. Others may be offering bikes for less, but not for a comparable machine. Always remember, if the deal looks and sounds unbelievable, you better take a closer look. My bikes generally have significantly lower miles than "average" bikes for similar comparisons so mine could be more expensive than a same year bike often, with 30, 40, 50 or even 60,000 miles on them in some cases. If you think my price is unfair for the condition and mileage, send me your thoughts. All I ask is that you be open with your reasoning, be fair and sensible and I'll do my best to work with you and make every effort to bring your lifelong dream into reality.

But here's a quick look into who we
are...My wife and I are people of great
faith. We have been married for 42
years, have three children, two are
married with a total of six
grandchildren. One son is deceased.

Our lives are blessed beyond our
imagination. Like anyone, our hearts
have ached at times and we have
struggles just like you do. We're not
perfect by any means...no life is. We
have simply put our trust in Jesus
Christ, the one and only Son of God
and we believe that through that
relationship we can face and overcome
any obstacle in our pathway. We have
prayed over every bike in our inventory
and are not ashamed to let the world
know all about the peace God offers.
We are not going to preach religion to
or at you, because we believe religion
is a "trap" when it's really about a one
on one relationship with the one and
only Son of God. Religion isn't not our
style, but we are all about listening to
and hearing the quiet voice of the "God
of miracles". We want you to know that
what we do goes far beyond buying
and selling motorcycles. It's about the

people we encounter and are brought into contact with and the lasting friendships we are making. We have had the honor of praying with countless customers and are always willing to speak words of encouragement to anyone who's path we may cross. In addition to the above, I've been a Harley enthusiast for over 40 years and enjoy them so much that I buy and sell them as full time hobby. I handle the cleanest, low mileage Harley's on the planet and when I can get my hands on them, am able to offer them at better than average prices for identical motorcycles found at franchise dealerships. I can do this because I have limited overhead since my wife and I are the HarleysDirect.com team. My bikes are not purchased at Powersports Auctions; they are not repos or the bikes other dealers rejected. I purchase the majority of my bikes right out of the garages of the original owners and occasionally from auto dealerships where they are traded. I search high and low for the cleanest, low mileage Harley's on the planet and travel upwards of 250 miles in any one direction leaving home some days at 6am and returning many nights at 11pm to find my Harleys. I am positive that there isn't anyone on the internet that works any harder than I do to bring top quality machines to their clients. I only offer above average inventory to the select few who are fortunate enough to "run across" a "HarleysDirect.com" offering. Every

bike is carefully gone over by a certified Harley technician with adjustments to all necessary components, a fresh oil change and a thorough test ride. I guarantee all my Harleys to be of the finest quality and the cleanest found anywhere on the planet with no stories or long explanations. If you aren't 100% satisfied with your purchase I will happily release you with no questions and a full refund of your deposit. I have sold bikes to more than 47 states, Costa Rica, Australia, Germany, France, Dominican Republic, Puerto Rico, Arab Emeritus Dubai, Canada, Laos, Thailand and many of my local communities and I do not have any unhappy client anywhere. I'm a very particular person and do this because I love it. I will tell you what I know and can see. People say I'm a little OCD, I just think I'm particularly fussy. My personal bikes get no more attention when I clean, detail and service them. I like to keep it simple, no pressure, no sales pitches, no screaming or yelling about "this month's special" just straight forward biker honesty. You WILL love dealing with "HarleysDirect.com"!

So check out our full inventory of bikes due in and also bikes available now at www.HarleysDirect.com.

****ALERT****

All of my machines are for sale outside of eBay and I would estimate that 90% of my Harleys sell BEFORE the auction comes to a close so don't

delay. Most of my buyers contact me, discuss the particulars and make their decision to buy directly. This causes many to miss out on some quality machines at extremely fair prices. My fees to eBay are paid when the bikes are listed so selling off eBay makes no difference and is permitted. So please know that I am happy to answer any questions you may have and understand that buying on line may be new to you. Give me a call and we'll see if we can't put you at ease. Call or text Tim at 717 278-1583 8am - 9pm EST or email me at timothyhamilton1977@gmail.com anytime. I will respond as soon as possible.

I do not use the eBay app so if you reach out through that source I will not respond.

FEES

We have a one-time fee of \$200.00 for title and paperwork processing. This includes all necessary documents to register the bike in your home state. All appropriate documents are notarized and prepared for you to walk right into your local DMV location and register your bike on the spot or you can haul your bike home and register it at your local notary or AAA for free if you are a member. ALL titles are clear, clean and without liens. You will also receive copies of my dealer information, licenses and other pertinent documents.

Out of state buyers have the option to purchase a temporary transit tag if you pick your bike up "in person" at our

local notary for roughly \$70.00 if you are interested in riding your bike home or you can haul it home on a trailer. You will need a valid motorcycle insurance identification card and a valid driver's license to do so.

SCAM WARNING

A few years ago I had two customers scammed by criminals who mostly function outside the USA and who contact them representing my listed or recently ended auctions. They will make you an offer that should seem "too good to be true" but two have fallen for it. They will also tell you that they want to do the deal through eBay or Pay Pal to receive their protection service, but it is a farce. IF you receive ANY communication from ANYONE but my email address or my cell number I would suggest you do not get caught up in the smoke and mirrors.

One of the two customers lost \$9,000.00 and the other \$6,000.00 so don't get suckered in. CALL ME on my cell number listed BEFORE you wire or PayPal ANYONE funds for one of my bikes. I speak and type the English language very clearly!!
