Engine:	0 cc
Exterior:	Vivid Black
Mileage:	11,634

2018 Harley-Davidson FLTRXS Road Glide Special

Why pay FULL RETAIL at a Harley dealership when you can save thousands on this incredible "LIKE NEW" machine? Take a close look at this sinister Blacked out version of a 2018 Harley Davidson FLTRXS Road Glide Special in the always stunning Vivid Black with ONLY 11,634, that wasn't a miss-print, ONLY 11,634 MILES. I just purchased it when the original owner decided his constant moving from base to base while serving in our military wasn't offering the riding time he had hoped for. I personally inspected and went over this one and "like new" is the best way to describe it. The bike is stunning

way to describe it. The bike is stunning in every way, bar none. It was sold new at Lakeshore Harley Davidson of Libertyville, IL. Now about my price, I have done my research and this IS the lowest priced 2018 FLTRXS Road Glide Special, with similar miles and condition, on the internet. In fact it's priced where many similar 2017 models are!! It's more than a fair price so don't get caught with your shorts down and lose the bargain that's staring you in the face. All I can say is WOW, WOW, WOW, and you know, even as a touring bike it still brings its share of attitude and fulfills every man's lifelong dream... The aggressive looks and ride of the Road Glide® Special motorcycle take our most road-devouring machine to an even darker place with blacked-out finishes on handlebars, wheels and headers. Powered by a blacked-out Milwaukee-Eight® 107 V-Twin, it's also loaded with premium features like 19-inch front and 18-inch rear Talon wheels, stretched saddlebags, a painted inner fairing and a BOOM!™ Box 6.5GT Touchscreen Infotainment System. The ride is premium too, thanks to its responsive suspension and Reflex™ linked Brembo® brakes. Blacked-out and loaded with premium features. Fire up the thrill-inducing Milwaukee-Eight® 107 V-Twin engine and you're in for one hell of a ride. Harley-Davidson Touring Story – Long haul comfort. No restraints. Harley-Davidson® Touring models feature long haul comfort combined with power that will unleash your soul. Spanning decades of

heritage and nostalgia, Touring bikes began their lineage in 1936 when the Motor Company introduced a new engine design nicknamed the Knucklehead. From that heritage grew the powerful Milwaukee Eight® engine with more power, comfort, and handling to go the distance, making piling up the miles rewarding and comfortable for both rider and passenger.

NEW IN 2018

- Dark finishes stretch from headlight to exhaust with new 19-inch front and 18-inch rear Talon wheels.
- Dripping in black are the engine guard, front forks, handlebars and hand controls, mirrors, turn signals, tank console, engine covers, air cleaner cover, mufflers and exhaust shields.
- Custom touches that create an aggressive, modern look include the stretched saddlebags that accentuate the bike's long, low profile and painted inner fairings.
- Hand-adjustable emulsion-technology rear shock absorbers offer 15% more preload adjustment than previous low-profile touring shocks.
- Front suspension features dual-bending valve suspension technology that delivers the damping performance of a racing-style cartridge fork with linear damping characteristics and reduced weight.
- Reflex™ linked Brembo® brakes with ABS and the Harley-Davidson Smart Security System are standard

equipment.

■ The all-black Milwaukee-Eight® 107 (1746 cc) engine offers quicker throttle response, more passing power, purer sound, a smoother ride and more of the feeling riders want from a Harley-Davidson Touring motorcycle engine.

■ Each Milwaukee-Eight engine produces 10% more torque*. The Milwaukee-Eight 107 accelerates 11% quicker from 0-60mph, equal to a two-to-three bike length improvement, and 11% quicker from 60-80 mph in top gear, equal to a one-to-two bike length improvement*. The Milwaukee-Eight engine offers improved rider and passenger thermal comfort due to reduced heat absorption, increased heat rejection and a redesigned exhaust system.

■ For improved fit, a new, slimmer primary drive cover and the low-profile shape of the air cleaner cover provide improved rider legroom around the engine and an easier reach to the ground for many riders.

■ All Milwaukee-Eight powered models are fitted with an assist and slip clutch with improved hydraulic actuation and 7% less clutch lever effort.

Just some thoughts:

You know, as Americans we've never lived in fear and we're not about to start now. No high gas prices, no incompetent politician and no political party dead set on destroying the foundations of our nation will ever keep me from ridin my Harley because FREEDOM has always been worth fighting for and FEAR SUCKS!

ighting for and FEAR SUCKS!
Freedom and wind will outlast hard times and I don't know about you, but I'm gonna ride no matter what! Now don't you think it's time for YOU to experience what our forefathers must have imagined FREEDOM could look like! There's nothing like throwing your leg over the heart pounding V Twin engine that has been the heart and soul of a Harley Davidson for over 120 years. Most people would say it's wind blowing in your face when you're cruisin the streets and motoring down the highway, but Harley riders realize it's not just wind, it's FREEDOM!! And that's something every man dreams of and every woman secretly desires. So follow your dreams and allow Harleys Direct turn your dream into reality today.

About My Prices:

I do my best to offer the highest quality, lowest mileage bikes than anyone else on the planet and do it at a fair price. My prices are ALWAYS lower than franchised dealers and our bikes have much lower miles and they are always in better condition. Others may be offering bikes for less, but not for a comparable machine. Always remember, if the deal looks and sounds unbelievable, you better take a closer look. My bikes generally have significantly lower miles than "average" bikes for similar comparisons so mine could be more expensive than a same year bike often, with 30, 40, 50 or even 60,000 miles on them in some cases. If you think my price is unfair for the

condition and mileage, send me your thoughts. All I ask is that you be open with your reasoning, be fair and sensible and I'll do my best to work with you and make every effort to bring your lifelong dream into reality.

FACEBOOK ALERT

If you are viewing this listing on Facebook we are limited to the number of pictures we can post. We also recommend that contact be made directly rather than through Facebook. I am not on Facebook constantly monitoring questions through that format.

But here's a quick look into who we are...My wife and I are people of great faith. We have been married for 42 years, have three children, two are married with a total of six grandchildren. One son is deceased.

Our lives are blessed beyond our imagination. Like anyone, our hearts have ached at times and we have struggles just like you do. We're not perfect by any means...no life is. We have simply put our trust in Jesus Christ, the one and only Son of God and we believe that through that

relationship we can face and overcome any obstacle in our pathway. We have prayed over every bike in our inventory and are not ashamed to let the world know all about the peace God offers. We are not going to preach religion to or at you, because we believe religion is a “trap” when it’s really about a one on one relationship with the one and only Son of God. Religion isn’t not our style, but we are all about listening to and hearing the quiet voice of the “God of miracles”. We want you to know that what we do goes far beyond buying and selling motorcycles. It’s about the people we encounter and are brought into contact with and the lasting friendships we are making. We have had the honor of praying with countless customers and are always willing to speak words of encouragement to anyone who’s path we may cross. In addition to the above, I’ve been a Harley enthusiast for over 40 years and enjoy them so much that I buy and sell them as full time hobby. I handle the cleanest, low mileage Harley’s on the planet and when I can get my hands on them, am able to offer them at better than average prices for identical motorcycles found at franchise dealerships. I can do this because I have limited overhead since my wife and I are the HarleysDirect.com team. My bikes are not purchased at Powersports Auctions; they are not repos or the bikes other dealers rejected. I purchase the majority of my bikes right out of the garages of the original owners and occasionally from other

owners and occasionally from auto dealerships where they are traded. I search high and low for the cleanest, low mileage Harley's on the planet and travel upwards of 250 miles in any one direction leaving home some days at 6am and returning many nights at 11pm to find my Harleys. I am positive that there isn't anyone on the internet that works any harder than I do to bring top quality machines to their clients. I only offer above average inventory to the select few who are fortunate enough to "run across" a "HarleysDirect.com" offering. Every bike is carefully gone over by a certified Harley technician with adjustments to all necessary components, a fresh oil change and a thorough test ride. I guarantee all my Harleys to be of the finest quality and the cleanest found anywhere on the planet with no stories or long explanations. If you aren't 100% satisfied with your purchase I will happily release you with no questions and a full refund of your deposit. I have sold bikes to more than 47 states, Costa Rica, Australia, Germany, France, Dominican Republic, Puerto Rico, Arab Emeritus Dubai, Canada, Laos, Thailand and many of my local communities and I do not have any unhappy client anywhere. I'm a very particular person and do this because I love it. I will tell you what I know and can see. People say I'm a little OCD, I just think I'm particularly fussy. My personal bikes get no more attention when I clean, detail and service them. I like to keep it simple. no pressure. no

no sales pitches, no screaming or yelling about "this month's special" just straight forward biker honesty. You WILL love dealing with "HarleysDirect.com"!

So check out our full inventory of bikes due in and also bikes available now at www.HarleysDirect.com.

****ALERT****

All of my machines are for sale outside of eBay and I would estimate that 90% of my Harleys sell BEFORE the auction comes to a close so don't delay. Most of my buyers contact me, discuss the particulars and make their decision to buy directly. This causes many to miss out on some quality machines at extremely fair prices. My fees to eBay are paid when the bikes are listed so selling off eBay makes no difference and is permitted. So please know that I am happy to answer any questions you may have and understand that buying on line may be new to you. Give me a call and we'll see if we can't put you at ease. Call or text Tim at 717 278-1583 8am - 9pm EST or email me at timothyhamilton1977@gmail.com anytime. I will respond as soon as possible.

I do not use the eBay app so if you reach out through that source I will not respond.

****FEES****

We have a one-time fee of \$200.00 for title and paperwork processing. This includes all necessary documents to register the bike in your home state. All

REGISTER THE BIKE IN YOUR HOME STATE. All appropriate documents are notarized and prepared for you to walk right into your local DMV location and register your bike on the spot or you can haul your bike home and register it at your local notary or AAA for free if you are a member. ALL titles are clear, clean and without liens. You will also receive copies of my dealer information, licenses and other pertinent documents.

Out of state buyers have the option to purchase a temporary transit tag if you pick your bike up "in person" at our local notary for roughly \$70.00 if you are interested in riding your bike home or you can haul it home on a trailer. You will need a valid motorcycle insurance identification card and a valid driver's license to do so.

SCAM WARNING

A few years ago I had two customers scammed by criminals who mostly function outside the USA and who contact them representing my listed or recently ended auctions. They will make you an offer that should seem "too good to be true" but two have fallen for it. They will also tell you that they want to do the deal through eBay or Pay Pal to receive their protection service, but it is a farce. IF you receive ANY communication from ANYONE but my email address or my cell number I would suggest you do not get caught up in the smoke and mirrors. One of the two customers lost \$9,000.00 and the other \$6,000.00.

\$9,000.00 and the other \$8,000.00 so don't get suckered in. CALL ME on my cell number listed BEFORE you wire or PayPal ANYONE funds for one of my bikes. I speak and type the English language very clearly!!
