As you can see from the photos, this Charger is in immaculate shape inside and out, however, we do want to make everyone aware that this Charger has a "NOT ACTUAL MILES / REBUILT" title branding from 2022 when it had just *12 miles* on it. The insurance company declared this Charger a total loss as a result. The vehicle has since been driven over 6,000 miles without concerns. While we typically do not sell these types of vehicles, we've carefully inspected the vehicle and reviewed the history report and feel this Scat Pack will make an incredible car for someone at an incredible price! We've taken into consideration the title situation and priced this Charger well below the market value!

To ensure this 2022 Charger Scat Pack runs and drives perfectly, it has been fully inspected and certified to be sold. The inspection process is very thorough, and all of the vehicle's systems, fluids, brakes, tires, suspension, engine, and drivetrain are gone through, so there are no surprises! If you have any questions or are considering trading in your current vehicle, please call anytime at (715) 833-2020.
