Drivetrain:	Rear Wheel Drive

Today we present this highly desired 2006 Dodge Ram 3500 Laramie Mega Cab dually powered by the legendary 5.9 litre Cummins Turbo Diesel 6 cylinder engine and mated to a 4 speed automatic transmission. According to CarFax which shows 4 owners spent most of its life in Texas and was highly serviced. Notable service shows: new turbo, new transmission, fuel injectors replaced and of course general maintenance. We also just ordered new LED headlamp assemblies (not shown) had all the fuel and

oil filters replaced and installed a new a/c compressor and dryer and lines plus had the Paintless dent/dings removed. The Laramie leather interior still shows in excellent condition with power seat, cruise control, infinity sound system, power sliding rear window, power windows/locks and rear entertainment system. Additional features include trailer hitch, fifth wheel hitch and trailer brake controller. We are taking to have the oil changed and crankcase filter replaced next week so she will be ready for the next owner. Please feel free to call ask questions or make an offer anytime @ 314-941-5226
