We completed an inspection on this RV and the following shows the results of our

findings:

Text 864 245 0730.

The engine runs good.

The transmission shifts good.

The engine or dash AC seems to work.

This motorhome was just driven approx 200 miles with no issues.

There are 2 roof top AC units that function.

The water system should work, the needs to be replaced.

It has 2015 date code tires.

The microwave turns on, although we did not cook anything in it.

The fridge works.

The LP system, water heater, furnace and stove top try to function

but the LP tank is empty.

A few of the lights do not work as you can see in the photos, most of the time, the bulbs are bad.

Most of these older motorhomes really need the oil, oil filter, fuel filter changed on both the engine and the generator.

The hydraulic jacks try to work but the passenger rear jack has a bad leak and the hydraulic jack fluid leaked out.

The carpet needs to be replaced.

The gas generator is missing.

The batteries are older

and may need to be replaced.

We do not normally check the TVs, radio or the electronics.

We did NOT check anything else.

If you do not see it, or I do not show it functioning or it is not listed in this description, the I did NOT check it, it is missing or similar. The only items checked are listed or shown in photos.

This RV is older and a little dirty and it could use a good cleaning, it is 17 years old and used. I tried to take a lot of photos so you can tell.

For the buy it now price

of \$19999 we will include the following, but any other price the following is NOT included:

- oil, oil filter and fuel filter change on both the engine and generator
