An amazing specimen, a Unicorn if you will. I'll start by stating that I CAN NOT document the actual mileage on this rig, but what a surmise it is that it is extremely low. This is a two owner machine. I purchased this rig from a gentleman that had it for over 30 years. His words to me were, "I never ride this thing, It's time for it to go." He purchased it from a friend who bought it new from Hempstead HD in Nassau County NY. who also "Hardly ever rode it" In our pictures you'll see a NY state inspection sticker from the last time it was in 1995. It had 313 miles on it at that time. It currently shows 695 on the odometer. I researched and found that the current speedometer/odometer unit was replaced in 2012. The gentleman I purchased it from informed me that the speedo unit stopped working for a short while. That is why I can not document the exact mileage. This rig still wears the ORIGINAL TIRES that it left the factory with. Take a close look at the tread depth on these tires. Quite amazing! These tires were discontinued in 1982. These are bias ply tires! 100% original HD paint other than some very light touch up we have done. Starts right and performs flawlessly just like it did in 1979. I can provide more pictures if need be. Can also do a live Facetime call for interested parties. Clean and clear title in hand. When buying from East 11 pay NO \$435 Doc fee, NO \$750 Reconditioning fee, NO \$350 Dealer prep. You pay our agreed price, no more!! Of course tax and tags to Pa. residents. We offer no financing.
