This is a 2017 Coachmen Leprechaun with 2 Slides, model 319MB, 32ft long.

Only 11k miles
We completed an inspection on this RV and the following shows the results of our findings:

Text 864-245-0730.

The Ford V10 runs good.

The transmission shifts good.

The gen works.

The engine or dash AC seems to blow cold.

This motorhome was just driven approx 100 miles with no issues.

There is a roof AC unit that works.

The LP system works, furnace, Water Heater and Stove top function try to function but it is low on LP gas.

It has the 2021 tires on it.

The microwave turns on, although we did not cook anything in it.

The water system should work.

should work.

The fridge works.

The power cord is a 30 amp.

It is a little dirty, there are some like black stuff on the ceiling, almost like a candle burned on the counter top by the TV and made some smoke.

The black will come off of the ceiling with some cleaning. We cleaned a spot and it was not too bad to make it come clean.

The batteries are older and may need to be replaced.

A few of the lights do not work as you can see in the photos, most of the time, the bulbs are bad.

are seen.

Most of these older motorhomes really need the oil, oil filter, fuel filter changed on both the engine and the generator.

We did NOT check anything else.

If you do not see it, or I do not show it functioning or it is not listed in this description, the I did NOT check it, it is missing or similar. The only items checked are listed or shown in photos.

This RV is dirty and needs a good cleaning and it is also a little rough, it is 7 years old and used.

I tried to take a lot of photos so you can tell.
