This is a Gulfstream Sun Voyager with 2 Slides, 36ft long.

Only 23k miles
We completed an inspection on this RV and the following shows the results of our findings:

The Chevy 496 cubic inch 8.1 V8 fuel injected liter runs good with the Allison auto trans

Amison auto trans.

The transmission shifts good.

The Generac gen works on starting fluid.

This motorhome was just driven approx 100 miles with no issues.

There are 2 roof AC units. Only one works.

The LP system tries to work, Water Heater and Stove top, but it is out of the LP gas.

It has the original tires on it, so, it needs new tires or approx \$2200.

The microwave turns on, although we did not cook anything in it.

The water system, we did not check.

The fridge works.

The jacks turn on but do not run.

The batteries may need to be replaced, they are older.

The main awning works, the material is the original and has a few holes in it but is still very functional.

A few of the lights do not work as you can see in the photos, most of the time, the bulbs are bad.

Most of these older motorhomes really need the oil, oil filter, fuel filter changed on both the engine and the generator.

We did NOT check anything else.

If you do not see it, or I do not show it functioning or it is not listed in this description

listed in this description,
the I did NOT check it,
it is missing or similar.
The only items checked
are listed or shown in
photos.
