New Hub & Lug Covers
Ready To Roll

This is one of the nicer Wide Hoods we have sold in a while. This truck was previously owned and operated in the Arizona Desert and has a very clean body because of that. This is the last generation of the Cat C15 Motor before after treatment emission systems were required. In other words this is just about as good as a truck as you can get. We are located 10 min from SLC airport. We can pick you up and bring you here or help ship this truck to your driveway.
