<b>Drivetrain:</b>	All Wheel Drive
<b>Economy:</b>	City 20 / Highway 26

The 2007 Subaru Outback 2.5i is a popular model known for its combination of ruggedness, practicality, and all-weather capability. Here are some key features and aspects of this vehicle:

**Engine:** The 2007 Outback 2.5i is powered by a 2.5-liter horizontally opposed ("boxer") four-cylinder engine, producing around 175 horsepower and 169 lb-ft of torque. This engine is paired with either a five-speed manual transmission or a four-speed automatic transmission.

**All-Wheel Drive:** Like all Subaru, the Outback comes standard with Subaru's Symmetrical All-Wheel Drive system, providing excellent traction and stability in various road conditions. This feature makes the Outback well-suited for driving in snow, rain, or off-road terrain.

**Ground Clearance:** The Outback has generous ground clearance, giving it the ability to navigate rough roads and moderate off-road trails with ease. This feature makes it popular among outdoor enthusiasts and those living in areas with challenging terrain.

**Cargo Space:** The Outback offers ample cargo space, with around 33.5 cubic feet of space behind the rear seats. Folding down the rear seats expands the cargo capacity to over 65 cubic feet, providing plenty of room for luggage, outdoor gear, or groceries.

**Comfort and Convenience Features:** Depending on the trim level, the 2007 Outback 2.5i may come equipped with features such as power-adjustable driver's seat, heated front seats, leather upholstery, dual-zone automatic climate control, and a premium audio system.

**Safety:** Subaru prioritizes safety, and the Outback typically comes

equipped with standard safety features such as antilock brakes, traction and stability control, front-seat side airbags, and side curtain airbags. Additionally, some models may have optional features like a rearview camera and Subaru's EyeSight driver assistance system.

Fuel Economy: The 2.5-liter engine in the Outback delivers decent fuel economy for its class. With the automatic transmission, you can expect to achieve around 20-22 mpg in the city and 26-29 mpg on the highway, depending on driving conditions and other factors.

Overall, the 2007 Subaru Outback 2.5i offers a versatile and capable package suitable for a wide range of driving needs, from daily commuting to outdoor adventures. Its combination of all-wheel drive capability, spacious interior, and practical features makes it a popular choice among buyers looking for a reliable and versatile crossover wagon.
