On the block this time is one of the most desirable muscle cars out there - the 1972 Chevy Chevelle. This one, painted around 6 years ago, is a beautiful black with dark striping on the hood and trunk lid. The US Mag wheels and the chrome touches really give this car a touch of class, and the updated headlights give it a unique head-on profile. Open the door, and you're presented with a black leather interior that shows almost no wear. It's cleaner in here than church on Sunday morning. Pull the hood pins and you'll find a Chevy 350, complete with headers, carb, aluminum radiator, and everything plumbed and in place for A/C. Coupled to it is a 3-speed auto transmission that makes your journey effortless. This Chevelle is an awesome example of an extremely sought-after car, without the 6 figure price tag generally associated with this model. It makes a great noise, it's a wonderful place to be whenever you step inside, and it never loses that look-over-your-shoulder appeal. Financing is available as always, and we accept trades as well. Come see it for yourself because one this popular won't be here long.
