Drivetrain:	Rear Wheel Drive

1967 FORD F150 with V8 and standard transmission. Power steering and power brakes. Barn find that runs good. Previous owner owned since 1996. Engine starts right up. Has old school camper shell. Body is very straight, and very little rust as this is a Texas truck. Interior appears to be original and the drivers seat is in really nice original looking condition. Transmission is a 3 speed, also called 3 on the Tree shifting off the steering column. Could be the extra truck you always need, without spending a a lot. Its a driver. We will be running

it through our Detail Shop, hear at Boerne Car Care, soon, but the current photos show it raw, from the barn where it was stored in Welfare Texas. or Call it a barn find, Call it a survivor, call it a truck you need to go do your home depot chores, or take this Barn find and with very little effort, make it car show toy. Priced at \$8500, How can you miss? 210-384-0084
