This 1983 Jeep CJ-7 is a bold and capable off-roader, combining classic Jeep design with serious muscle. Finished in striking red with black accents, it commands attention on and off the trail. Under the hood, a powerful 283 CID V8 engine paired with a 4-speed manual transmission from a 1967 Chevrolet K10 provides a unique and thrilling driving experience offering excellent control and torque for challenging terrains. Riding on a new set of hefty 35 x 12.50 15 Cooper Evolution M/T tires, this Jeep is equipped to tackle the toughest trails with ease thanks to exceptional traction and ground clearance. A new wiring harness ensures reliable electrical performance, adding to the Jeep's dependability in all conditions. While it isn't flawless or perfect cosmetically, this CJ-7 remains a solid and trustworthy off-road vehicle, built to handle whatever you throw at it. The V8 engine swap adds a distinctive touch of American muscle, setting it apart from the crowd and enhancing both power and rarity. A heavy duty Badland ZXR 12000 winch has been mounted to the off-road front bumper in case you come across a less capable trail buddy that has gotten themselves stuck. Whether you're navigating rocky paths, muddy trails, or simply enjoying a cruise through town, this Jeep CJ-7 is built to deliver a robust and enjoyable ride. If you're in search of a classic, capable 4x4 with a strong personality and plenty of power, this Jeep is ready for your next adventure. Financing is easy and trades are welcome. Come by, call or click today!
