## Vehicle Description

Additional pictures are posted on I-95 Muscle's direct website.

This 1994 Nissan R33 Skyline GT ST, is a rare gem with a factory sunroof, a feature found in only about 15-25% of these models, making it an even more desirable find for enthusiasts. Finished in a crisp white, with just over 103k miles when converted from kilometers, this right-hand-drive legend is powered by none other than the turbocharged 2.5L RB25DET engine. Mated to a 5 speed manual transmission this track monster offers an engaging and spirited driving experience. The Skyline's aggressive stance is complemented by the factory aero package and sleek Avid.1 AV06 wheels, reminiscent of the iconic TE37 design, which add a modern touch to its classic appeal. Inside, the car is outfitted with minor aftermarket parts (a JVC head unit, a boost gauge, and a turbo timer) blending modern functionality with its classic performance pedigree. The interior also features the unique sunroof that still functions properly, enhancing its rarity and collector value. The car's overall condition is a testament to its well-preserved history, with the powerful engine and manual gearbox making it an ideal choice for anyone looking to experience the thrill of a turbocharged JDM classic. The combination of its rarity, condition, and its robust performance, makes this R33 a standout choice for any collector or enthusiast looking for a piece of Nissan's storied history. Financing is available and trades are welcome. Call, click, or come by today!

## Installed Options

Displayed pricing excludes I-95 Muscle's \$499 Dealer fee as well as any DMV, tax, and license plate fees associated with registering the vehicle in the purchaser's state.
